Log of All
MARIAN AND JIM JORDAN APPEARANCES AND SPECIALS
1917-1980

This log attempts to account for all performances by Marian and Jim Jordan that are not revealed in the other nine logs of this series. The types of media and the number of sources are many. The types of media range from Personal Live in the early days through radio, television and video tape (see Medium Abbreviation Key below) at present (with Jim only since 1959).

Jim Jordan, born two years before Marian, had a four year professional head start on his would-be bride with a local group "The Templeton Quartet". Soon after Jim was touring the U.S.A. & Canada as a vocalist in vaudeville joining "A Night With The Poets" in 1917, meanwhile, Marian played violin and piano, and sang at local Peoria religious and social events. They married August 31st, 1918 and September 5th Jim was off to war in France. There he organized the "Premiere Review" with Dan Gallagher. Soon his brother Byron Jordan joined the 35 member group that served to entertain stranded & wounded troupes.

After returning home in 1919 appearances were few until Marian and Jim formed managed, and owned their "Metropolitan Entertainers." This was their first effort together professionally (1921). Soon they would be in Chicago radio while continuing appearances in the local theater houses and eventually in 1927, they would sign with WENR making radio their number one medium in entertainment. The remainder of their story of performances is "history" as proven by the contents of this and the other nine logs of their voluminous performances on the air and in person.

This log alone accounts for greater than 5,100 performances by Marian and Jim Jordan, in person, on the air, on commercial records, and in telecasts. Add to this the unknown number of appearances on the National Farm and Home Hour, The Breakfast Club, Saturday Night Jamboree and hidden performances in the 20's on WLS & WENR, the 4000-plus aired performances and surely their grand total approaches 10,000 gifts of laughter and song to the tens of millions who loved and listened to the Jordans, especially as Fibber McGee and Molly.
